

GET READY TO LEARN TRAINING INFORMATION

NOVEMBER 2ND - 4TH
(18 CONTACT HOURS)

We are pleased to begin a new school year with an exciting announcement. The Get Ready to Learn program has scheduled a 3-day of training for schools interested in implementing the program to support student learning. The training, hosted by Yoga For The Special Child, offers schools the opportunity to introduce the researched curriculum upon completion of the training.*

To achieve a successful outcome for your school and students, it is recommended that schools interested in implementing the program select a team to participate in the training. The team should include an Administrator, a lead Therapist (OT or PT), and a Lead Teacher. The team is able to support the program across school domains and coordinate all aspects of the program for optimal outcomes. Supporting the school community in building a shared language, understanding and commitment maximize success.

The cost for the 3-day training is \$500/\$530 per participant (depending on payment method) and includes a highly interactive and experiential remote training, a downloadable resource manual to guide every step of implementation, a reproducible classroom handbook for participating teachers, 1-year renewable Membership access to the GRTL library of yoga sequences, breathing practices, monthly tutorials, and online downloadable resources. Seating is limited.

** Please note: Additional consultations and supports are available and can be purchased separately*
